

Aquatic Turtle Taste Treats

Young turtles are carnivorous (meat-eaters). Adults become omnivorous. Start adding small amounts of vegetables and fruit to the young turtle's diet and gradually increase the proportion of plant matter.

Majority of Diet:

- Whole Prey
 - Mice
 - Earthworms
 - Slugs
 - Goldfish (frozen and thawed)
 - Guppies
 - Trout
 - Bait Fish
 - Smelt
- Vegetables
 - Dark, leafy greens (kale, romaine lettuce, cabbage, watercress, endive, bok choy, escarole, spinach)
 - Duckweed
 - Carrots
- Fruits
 - Apples
 - Oranges
 - Grapes
 - Melons
 - Bananas

Minor Diet Items:

- Purina Chows (for feeding Trout, Catfish or Shrimp)
- Reptomin Floating Food Sticks
- Semi-moist dog or cat food (Gaines Burger, Tender Vittles)
- Commercial aquatic turtle diet (avoid dried insects)
- Insects (crickets, waxworms, mealworms, flies, moths, grasshoppers)
- Small amounts of lean raw beef, liver, gizzard or chicken
